Subject: RE: Dominion Environmental Services Permitting Schedule Development with GAI

Mike,

Attached is some information that we put together to help facilitate the discussions with GAI during this Thursday's meeting. We've laid out our assumptions about the activities that will be undertaken during the pond closures (based on our discussions with you) and the types of permits that would be required for those activities. We've also provided some information that will be needed in order to obtain the permits (or at least prepare the applications). One thing that we are not clear on is the project scheduling, which we should really try to get a better handle on during the meeting.

Hope this helps. I will be providing you something similar for Bremo by separate email.

Ken

When: Thursday, February 12, 2015 12:00 PM-2:30 PM (UTC-05:00) Eastern Time (US & Canada).
Where: 1-SE-D

Would this time work better?

00010457

Ken,

We would like to meet with GAI to develop the Permit Acquisition Schedule for the Possum Point Ash Pond Closure. Lunch will be provided. I have attached the previous Agenda/topic document(items 3-10) from our previous General Permitting Meeting. We would like you and your team to address these items during the meeting. From this information, we want to begin populating a Permit Acquisition Schedule similar to the Chesapeake project (attached), and for everyone to understand their roles in this process.

Thanks,
